Sagar Kalshetty

+91-7795086368 | kalshettysagar910@gmail.com | LinkedIn | GitHub

Education

Presidency University — Bengaluru, India
B.Tech in Computer Science & Engineering (Blockchain), CGPA: 7.85/10.0 — *Aug 2023 – May 2027*

Shree Guru Independent PU College — Kalaburagi, India
Pre-University Course, Science (PCMB), Score: 92.94% — *Aug 2021 – May 2023*

Experience

Web Development Intern — June 2025 – August 2025
Uptoskills

- Designed and developed 4 responsive, component-based web applications using React.js, HTML5, and CSS3
- Built 10 reusable React.js UI components to deliver dynamic, responsive interfaces across browsers
- Worked in a 5-member engineering team using Agile/Scrum over 6 sprints, taking part in code reviews and shipping 5 production-ready features

Projects

Bug Trail | *Java, React.js, MySQL, JWT*

- Built a full-stack bug tracking application with a Java REST API and a React.js frontend for reporting, assigning, and resolving bugs
- Implemented JWT authentication with role-based access (admin and user) to control who can create, assign, and close bugs
- Designed an activity history that records every status and assignee change, giving each bug a complete audit trail
- Added bug lifecycle management (status, priority, assignee, comments) with filtering and search

AI-Assisted Job Matching System | *Python, FastAPI, SQLite, REST API*

- Built a RESTful API with FastAPI exposing 6 endpoints to manage candidate profiles and job descriptions
- Designed a scoring algorithm that computes a match percentage between candidates and jobs across 8 skill categories
- Integrated SQLite with full CRUD operations across 4 tables

Business Sales Analytics Dashboard | *Python, Pandas, JavaScript*

- Developed an interactive dashboard to analyze revenue, profit, customer trends, and regional sales performance
- Processed sales datasets with Pandas to generate KPIs and business insights
- Built dynamic charts and filters for reporting and data visualization

Technical Skills

Languages: Java, Python, JavaScript (ES6+), SQL, HTML5, CSS3
Frameworks & APIs: React.js, FastAPI, REST APIs, JWT Authentication
Databases: MySQL, SQLite
Libraries: Pandas, NumPy, Scikit-learn
Developer Tools: Git, GitHub, VS Code, Jupyter Notebook
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
Familiar With: MongoDB, Solidity, Smart Contracts, Hardhat, Ethers.js

Certifications & Achievements

- Python Programming Certification – Scaler Academy
- Introduction to Data Analytics – Cisco Networking Academy
- SQL Analytics & BI on Databricks – Databricks
- Smart India Hackathon (SIH) – Internal Round Qualifier
